ABOUT CLEARWAY

Built to move businesses **beyond borders** and **through change.**

We help companies enter the GCC, expand internationally, transform operations, and build the internal capability to sustain growth. Clearway Consulting LLC is a QFC-licensed strategic advisory firm headquartered in Doha, Qatar.

01

Our **firm.**

BUILT IN DOHA

INTERNATIONAL IN OUTLOOK

DESIGNED FOR DELIVERY

DOHA CORNICHE — WHERE MANDATES BEGIN

BUILT TO CLOSE THE GAP BETWEEN DIRECTION AND DELIVERY

Businesses rarely struggle because they lack ambition or ideas. The real difficulty begins after the decision is made.

Strategy is often separated from implementation. Specialist providers work in isolation. The client is left coordinating the moving parts.

Clearway was built to close that gap. We connect direction, execution, and responsibility from the first decision through delivery and handover.

One clear mandate.
One accountable team moving it forward.

01 **Built in Doha**
Grounded in the GCC.

02 **International in outlook**
Connected across markets.

03 **Designed for delivery**
Structured to move from decision to outcome.

NO. 02 — WHAT WE BELIEVE

Clarity should lead to **action**, and action should build ownership.

Three principles guide how we work:

01

Clarity before activity

We define the objective, the decisions that matter, and the conditions required for progress before work begins.

02

Advice must translate into movement

We do not separate strategy from execution. We help turn decisions into coordinated work, partner alignment, and measurable progress.

03

The client should become stronger

Every mandate should leave behind better systems, clearer ownership, and stronger internal capability.

Advice should create movement, not dependency.

NO. 03 — OUR APPROACH

A disciplined path from **mandate** to **ownership.**

Our work follows a disciplined path: define the mandate, design the architecture, mobilise the right partners, manage execution, and transfer ownership.

01

DIAGNOSE

Clarify the objective, constraints, stakeholders, and decisions required.

02

ARCHITECT

Design the commercial, operational, legal, digital, or governance structure required to move forward.

03

MOBILISE

Bring together the right internal teams, specialist partners, and implementation resources.

04

DELIVER

Coordinate execution, manage dependencies, and keep the mandate moving.

05

TRANSFER

Document the model, strengthen client capability, and leave clear ownership behind.

The method adapts. The discipline does not.

Clearway adjusts the team, workstreams, and delivery structure around the mandate while maintaining clear governance, decision-making, and handover.

NO. 04 — FOUR CONNECTED SERVICE AREAS

What we **do.**

Clearway works across four connected service areas. Each mandate is shaped around the client's objective, market, structure, and stage of growth.

01 Market Entry

For international companies entering Qatar or the wider GCC.

- Market strategy and jurisdiction sequencing
- Entity structuring and licensing advisory
- Legal and compliance coordination
- Ecosystem mapping and stakeholder introductions

02 Market Expansion

For GCC-based businesses, family groups, SMEs, and institutions expanding internationally.

- Expansion readiness and market selection
- Route-to-market and commercial model design
- Local partner identification and vetting
- Cross-border governance and activation planning

03 Digital Transformation

For organisations redesigning operations through AI, automation, software, data, and digital governance.

- Digital maturity and priority assessment
- AI strategy and use-case selection
- Software, automation, and process digitisation
- Vendor, implementation, and adoption governance

04 Training & Capability Building

For founders, executives, managers, and institutional teams that need practical capability, not generic training.

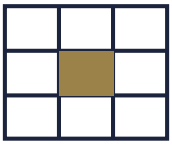

- AI Implementation for Business Leaders
- GCC Business Expansion
- Market Entry Readiness
- Custom executive and institutional capability programmes

NO. 05 — THE CLIENTELE

Who we **serve.**

Clearway works with clients that have a defined objective, decision-making authority, and a mandate requiring execution. The level of complexity may change, but the discipline, senior expertise, and accountability remain constant.

FOUNDERS

BUILD THE FOUNDATION

Early-stage and growth-stage founders building the strategic, structural, and digital foundations required to scale with confidence.

CORPORATES

SCALE WITH STRUCTURE

Mid-sized and large organisations managing operational complexity, cross-border growth, or board-approved transformation mandates.

INSTITUTIONS

GOVERN COMPLEXITY

Government entities, semi-government organisations, regulated institutions, and large family groups navigating complex, multi-stakeholder mandates and compliance requirements.

Our specialist **network.**

CURATED SPECIALIST NETWORK

Clearway does not try to be every specialist. We govern the mandate and bring in the right qualified expertise when required. The client benefits from coordinated delivery without having to manage every provider separately.

01	**Legal** Corporate & Commercial	02	**Corporate Services** Company Formation & Government Liaison
03	**Software Development** Custom Build & Systems Integration	04	**Auditing & Accounting** Assurance & Compliance
05	**Workforce & HR Advisory** Talent Strategy & Workforce Planning	06	**F&B Consulting** Concept, Operations & Launch
07	**Marketing & Brand** Strategy, Identity & Performance	08	**Logistics & Supply Chain** Cross-Border & Last-Mile
09	**Workplace & Site Advisory** Office Solutions & Location Strategy	10	**Training & Development** Capability & Leadership Development
